

Accident Investigation Packet

In conjunction with Chimes ***Injury Prevention Program***, it is your responsibility whether an employee or Supervisor to aid the Risk & Safety Manager in obtaining necessary information after an incident or injury. Accident Investigation forms/statements should be filled out by the injured employee (or representative), supervisor and any witnesses to the accident. Please provide the most accurate phone number for both the employee and supervisor so that the Risk Manager and Insurance Carrier can contact you to conduct their investigation.

IMPORTANT-Care must be taken to assure the investigation is fact finding, not fault finding. Obtaining signed statements as soon as possible following an accident ensures that Chimes, has an accurate account of how the injury occurred. These completed statements are important in helping Chimes to correct hazards and prevent accidents from reoccurring.

This Packet Should Contain:

Vehicle Accident Investigation Report
Employee's Report of Injury
Supervisor's Accident Form
Accident Witness Statement
Non-Work Related Incident Report
